

WARRANTY STATEMENT

All structural glue laminated timber products produced by TimberLab Solutions Limited at their premises at 9 Bostock Place, East Tamaki will be manufactured in accordance with the specification, grade and service class advised by the client.

Manufacture will be in compliance with AS Standard 5068, the standard for finger-jointed timber and AS/NZ Standard 1328.1, the standard for glue laminated structural timber.

In compliance with The Building Regulations 1992, TimberLab Solutions Ltd. is audited by Bureau Veritas and certified to manufacture to these standards. Our Licence No's: 2915/6 are in compliance with AS5068 and AS/NZS1328.1.

A suitable penetrating sealer for temporary weather protection will be applied in the factory unless otherwise instructed by the client. A further application should be provided by others once on site to maintain long term surface appearance to external members.

This warranty does not cover consequential effects. Statutory rights assured by law are not affected by this warranty.
